About us

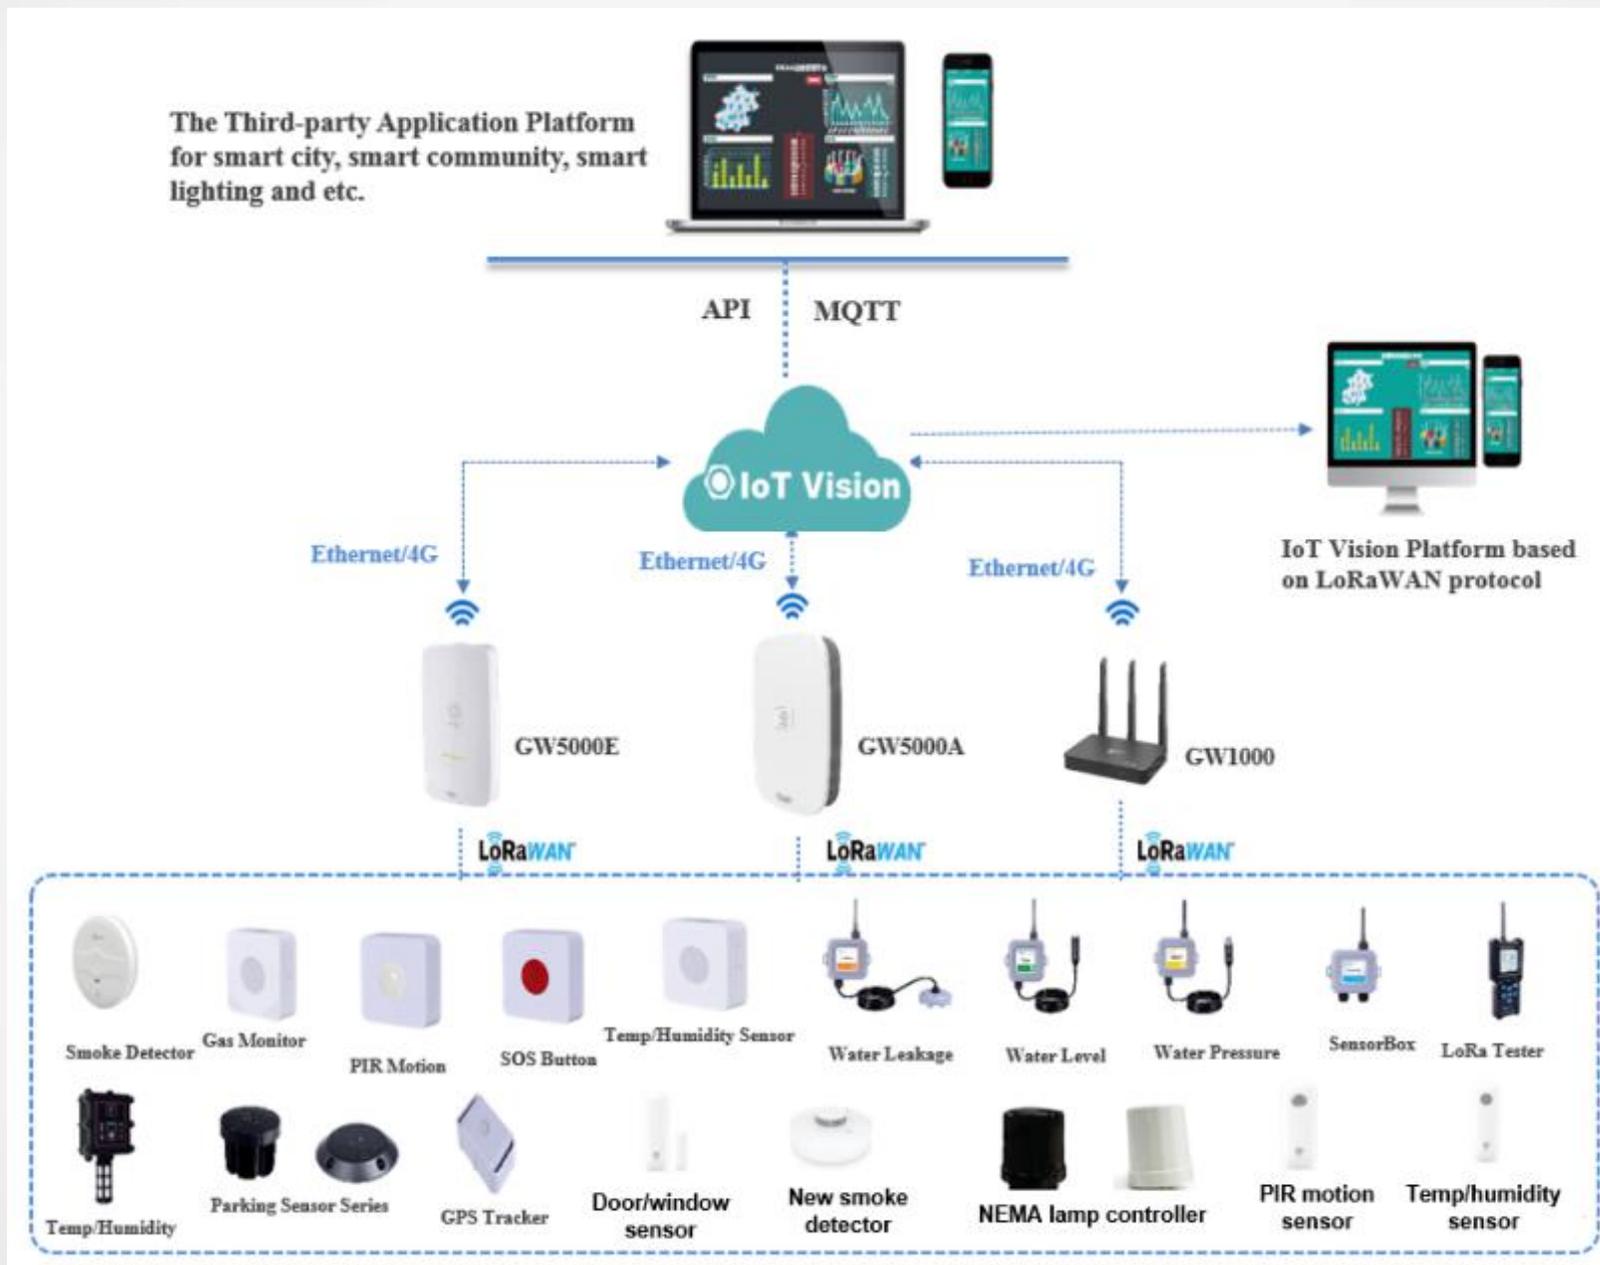

Winext Technology is an AIoT "end-to-end" one-stop solution provider. Focusing on R&D for IoT, we offer whole stack IoT products and system solutions. Our business covers smart city, smart community, smart firefighting, smart elevator, smart street lighting, smart parking and so on.

Deeply engaged in LPWA field for many years, Winext Technology has accumulated profound experience and R&D capabilities. We are a national high-tech enterprise with more than 100 patents and intellectual property rights, including more than 30 invention patents. We've got the type approval certificate of radio transmission equipment issued by the radio communication agency of MIIT of China, and some of our products have been CE/FCC certified.

We adhere to the core value of connection and provide customers with professional IoT products and services with high security and reliability. We have participated in many smart city projects at home and abroad, and served nearly 1,000 customers in more than 60 countries and regions.

Winext LoRaWAN architecture

Winext LoRaWAN hardware & solution

3 models of gateways

30+ models of end devices

50+ application solutions for
smart city, smart community,
smart industry, smart parking,
smart lighting and etc.

LoRa gateways

GW5000A is an industrial-grade outdoor gateway with IP67 and CE/FCC certified.

GW5000E is a light-weighted gateway with IP65

GW1000 is a indoor gateway for smart building

LoRa end devices---smart parking

AN-101C in-ground type geomagnetic parking sensor with IP68

AN-101D surface-mounted type geomagnetic parking sensor with IP68

LoRa end devices---smart street lighting

WLC-NEMA-04 lamp controller with NEMA standard

WLC-NEMA-03 lamp controller with NEMA standard and photocell

LoRa end devices---smart industry

AN-201 multifunctional
SensorBox

AN-202A Water pressure
transmitter

AN-203A Water level monitor

AN-204A Water leakage
detector

LoRa end devices---smart building

AN-301 SOS button

AN-302 gas monitor

AN-102D smoke detector

AN-305C PIR motion sensor

AN-303 temperature humidity sensor

AN-304C PIR motion detector

AN-305A door/window sensor

AN-305D Temp/humidity sensor

LoRa end devices

AN-103A
temperature humidity
sensor

AN-122-A02 LoRa GPS
tracker

AN-106 LoRa tester

Winnext Cloud Platform

- **LoRaWAN middleware**

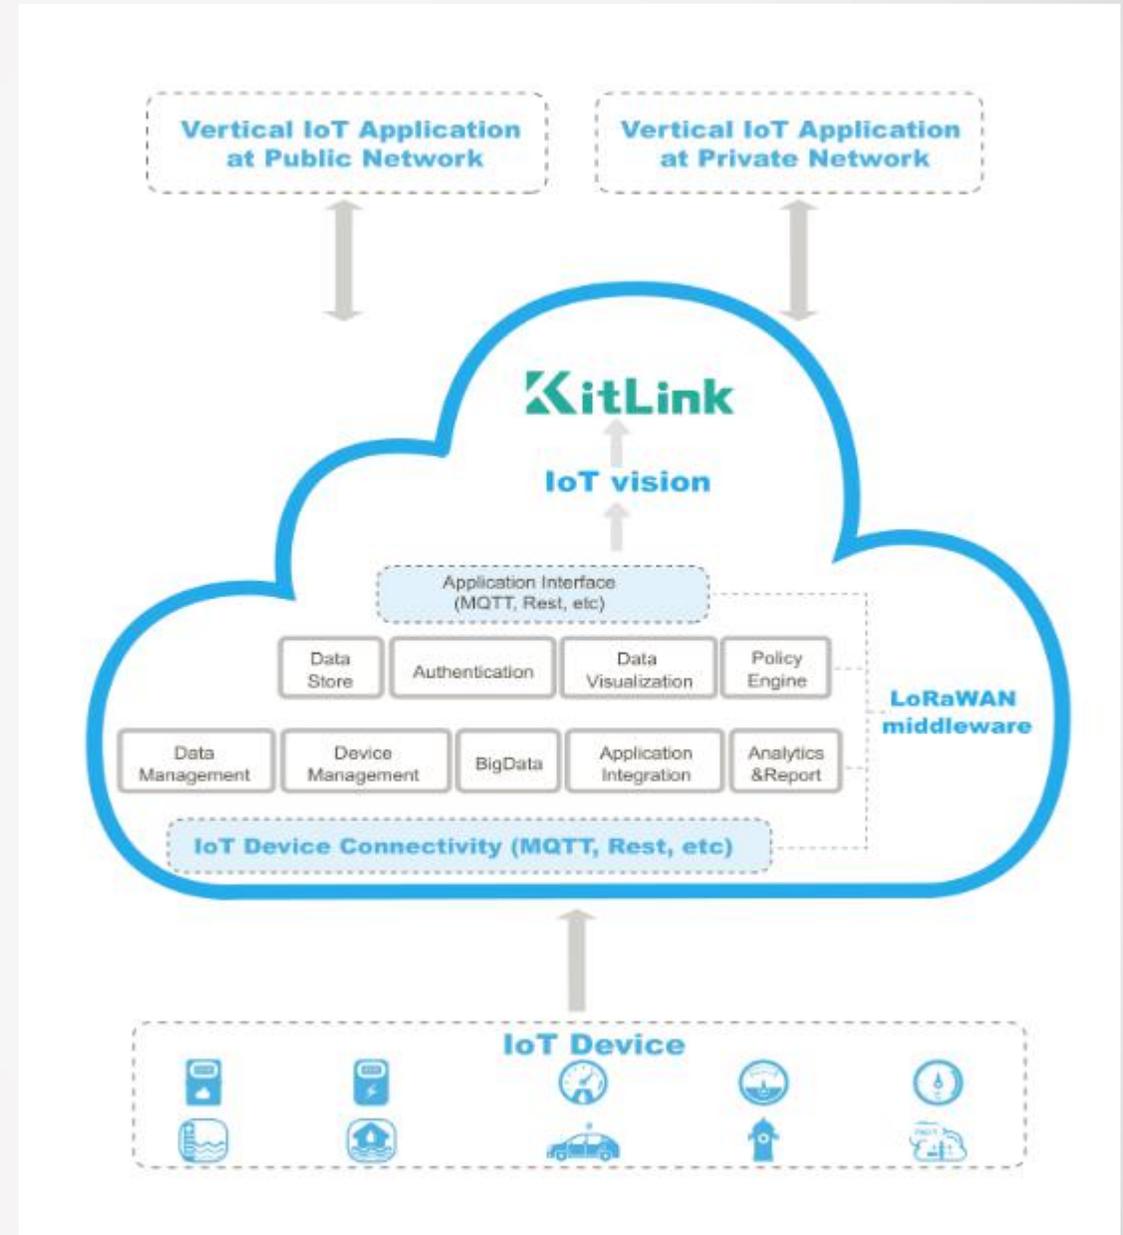

As to LoRa network server, we can provide our LoRaWAN middleware, customers can deploy the middleware locally on their server or on Cloud. The data is in their hands, we'll provide them with API interface and MQTT message subscription to interface with customers' application platform.

- **IoT vision platform**

Based on our LoRaWAN middleware, we've developed our IoT vision platform, which is a visualized platform for demo and interface with customers' application platform.

- **KitLink platform**

Based on our LoRaWAN middleware, we've developed our KitLink platform, which is a visualized platform for vertical application. Now, we've already had two vertical applications of security monitoring and smart street lighting.

Our partners in China

Our global partners
